Freedland Shoah Fund Grant Application Rolling Deadline

The Maureen and Robert Freedland Fund for Studies of the Shoah supports projects to benefit La Crosse School District students and advance their understanding of the “Shoah,” the systematic genocide against the Jewish people and other “undesirable” groups targeted for destruction by the Nazi regime in World War II. Key goals include:

- Exposing students to the history of the Shoah. Priority will be given to educational activities concentrating on the Shoah but related topics may be considered as long as a connection to the Shoah is maintained.
- Teaching students to recognize the historical events and beliefs that made the Shoah possible and relate them to current events and beliefs.
- Assisting students and educators to understand the impact of the Shoah in the world and to comprehend the impact of current and potential genocide events today.

Information from the attached application form will provide the Freedland Shoah Fund and LPEF Grant Committees with the data needed to consider funding. Applications may be from staff, students, parents or community members. Applications for this and other LPEF grant programs may be found at www.lacrosseeducationfoundation.org.

Applications will be evaluated based on criteria including:

- The proposed project is consistent with the goals of this fund.
- A significant number of students will be impacted by the proposed project.
- The project is repeatable or sustainable over time.
- Preference may be given toward projects benefiting middle or high school students.
- Preference may be given to projects that incorporate two or more disciplines.

Project funds must be spent within one year of disbursement. A final report will be required.

Budget Clarification: Grant money may be used to accomplish the project and/or hire consultants to assist if necessary to the overall objective. Payments for services of La Crosse School District employees are prohibited.

Required Curriculum Addendum: Instructional materials purchased need to be consistent with school district curriculum. Purchase receipts should be retained and the Foundation reimbursed for any unused funds.

Applications are welcome at any time. Submit a typed copy of your application to:
